

Grifflands OPTICAL

FAQ

I can see fine. Why do I need an eye exam?

We can't always see underlying eye issues or gauge our overall eye health. Having your eyes checked at least once a year ensures that any eye prescriptions are up to date and any eye problems, such as cataracts, glaucoma or refractive errors, can be caught early and treated properly.

Do you repair glasses?

Yes! Just bring in your frames and our staff will be happy to help.

What insurances do you accept?

We accept Davis Vision, EyeMed, Spectera, CareSource, most Medicaid, and more. Call our office today at (219) 513-9178 to verify your insurance.

What payment options do you accept?

We accept cash, check, Care Credit, and most credit cards.

Call our office with any questions and to schedule your eye exam today.
